

Assumption disclaimer

Performance is based on standard conditions, zero wind with no runway or temperature restrictions, and standard fuel reserves. Maximum range is based on flying at long range cruise speed with two passengers. Actual flight range and cruise speed will vary with payload, wind, and weather conditions. Aircraft illustrations are not to scale. Maximum range on the G550/GV is achieved by accommodating an additional crewmember in the passenger cabin due to regulatory FAA requirements.

Maximum Range (Hours) Data assumes 4 passengers for light, mid, and super-mid cabin; 6 passengers for large cabin.

All planes represent MAX capacity including belted lavatory, except Phenom 300

All "Miles" listed are Statute Miles. (A mile is sometimes called a statute mile or land mile to distinguish it from the nautical mile which is somewhat longer.)
